A perspective view of the microscope assembly 160 mounted on a base 192. The assembly includes a main body 70 with a viewing eyepiece 68 at the front. A stage 66 holds a specimen slide 166. A coarse focus wheel 64 is used for large adjustments, while a fine focus wheel 72 provides precise focusing. An objective lens 74 is positioned above the specimen. A spring-loaded lever 164 is located near the base of the microscope.
